1 GENERAL PRESENTATION

Here is a simplified procedure for connecting and printing files (PDF, images, etc.) from an Android tablet or smartphone using an application available from the Play Store.

There are two ways to establish a connection:

-By WIFI between your smartphone and the EPSON printer without using an Internet box. -By Bluetooth

2 **GENERAL INFORMATION**

2.1 <u>Requirements</u>

- ⇒ Own Tablet or ANDROID smartphone
- ⇒ To have downloaded or installed the « NOKOprint » app via Google PLAYSTORE

3 TABLET/SMARTPHONE CONNECTION TO THE PRINTER VIA WIFI

-Activate the wifi on your smartphone/tablet

-Turn on the printer by pressing the left button $\sqrt[n]{2}$

- -Open the roller valve by pushing forward
- -Add the paper roll as described below

-Press the button until a beep is heard -Close the roller valve. A paper will come out with several possible actions

WEAT MENTION
ACTIONS
0: Exit
2: Network Status Sheet
4: Network Diagnosis
5: Simple AP
Select Modes by executing following procedure.
step 1. Press the Feed button less
than 1 second as many times as the selected mode number.
step 2. Press Feed button for 1 second or more.

To select « Sample AP » :

confirm your choice.

A long page is printing.

Piay).
Open the application and select "Wi-Fi Setup Wizard" function. After then, follow by navigation on Epson TM Utility.

SSID : DIRECT-TM-P20II XC2F000201 IP Address : 172.16.10.1 MAC Address : A6-D7-3C-C6-42-EA

-Scan the QR Code and accept the Scanner le QR code et accept the connection to this WIFI network or go to the WIFI setting on the tablet/smartphone and choose the network whose name is SSID, as explained on the image above (SSID :DIRECT-TM-P20II) -For the password, write the last digits of the SSID «XC2F000201 »as our example above.

-Quickly press 5 times the 🙆 button, and then a 6th time for more than a second to
